“ She was simply the best woman! She loved deeply! She would help anyone. Grams always had a smile on her face when you saw her and a hug waiting. Her house was always home. She had a way of making you feel better if you were down. There was never a dull moment. She will be remembered by many and definitely in my heart forever! I love you Grams! I am sorry for your loss. Hugs and prayers to you all

“ Grandma B is the only name I ever called her. She touched my life with her generosity and caring demeanor. She always greeted me with a hug. She wasn't family but I sure felt like she was. She will be deeply missed and my condolences and prayers go out to her families. Rest in peace Grandma B.
