“ Sharon's mother Genevieve and my mother belong to the same "cicle", a group of farm women in the Hayes school district. Sharon and I were frequently the preformers for the group. Sharon entertained on the piano and I entertained by drama or comedy pieces. My mother once wanted me to preform on the piano for the group I believe I refused. Sharon's skill would make my chop sticks level would have had the ladies lock me out of the house. Sharon and I rode our bikes on the gravel roads near her house. We both attended Buenva Vista 'College'. We shared a fire door between our dorm rooms. She threatened to report my smoking in my room to the dorm mother. Growing up together in a farm community brings back many memories. I wish you peace, Sharon.
